

**A robust and stable barrier system that is suitable for construction sites, traffic delineation and outdoor events.**

- The StrongWall barrier comes with an 18kg recycled plastic base. It can support lateral weight up to 30kg, and a wind force up to 32mph (51km/h). The high density (HD) moulded top section can be water filled, adding a further 15kg
- Anti-tamper linking system – an innovative linking system which prevents the barrier being dismantled by unauthorised personnel
- Quick and easy to install
- Easy to transport and store – designed for compact stacking to provide low transport costs
- Top section can be supplied in red, orange and white. (Other colours and corporate customisation available on request)
