

**A versatile barrier system suitable for controlling roadworks, traffic or pedestrians.**

- The Watchman is a complete system made from high density polyethylene – reflective plank (1.25m or 2m) + base + post = complete set
- Conforms to the Chapter 8 regulations
- Constructed from any combination of bases, uprights and planks to fit desired layout
- Heavy duty square bases fit over the uprights to ensure the system cannot be easily dismantled when unattended
- Lamps can be fitted to uprights and sit inside the post for protection
- Standard barrier features red posts and either 1250mm or 2000mm planks
- Other coloured posts/bases available on request
