# Solving problems for safer working.

Since 1985, Oxford Plastics has been dedicated to helping industrial workers do their jobs safely and efficiently.

Our award-winning range of intelligent, compliant, problem solving products are creating safe working environments for people across a host of industries – including highways, utilities, events and streetworks; as well as the industrial, civil engineering and construction sectors.

We also collaborate closely with the Depts of Transportation and industry leaders around the world, such as JAG, HAUC, NJUG and REMA, ADA and respected professors of Engineering. This ensures safety standards and product integrity are not only met, but consistently exceeded.

**As the world changes, so do we. We're committed to creating even better solutions and delivering even better service, so our customers always know that whatever challenges they face, we've got it covered.**

## Accelerating Our Business

The last 12 months have seen exceptional growth at Oxford Plastics, and our customers are at the heart of it all. As we grow, we invest in new staff, resources and machinery to reduce our lead time and develop even more solutions-based products.

## Product Development

Innovation, we've got it covered. Through continuous improvements, customer feedback and bringing entirely new concepts into the marketplace, we make our customer's jobs safer, more efficient, and even more environmentally sustainable.

## Reducing Carbon Emissions

We know that sustainability can be complicated, so we educate our customers about sustainable choices for their projects and job sites. Continuing from our progress in 2021 & 2022, we've committed more resources to reduce carbon emissions through our supply chain. That's why you will see the embodied carbon footprint for our key products in this year's brochure.

## New Website

We launched our new website in 2022, complete with case studies, product sheets, technical guides and downloadable web assets packs. Designed to help our customers find the information they need quickly and easily. And if you have any additional questions, we're always here to help.

## What is a carbon footprint?

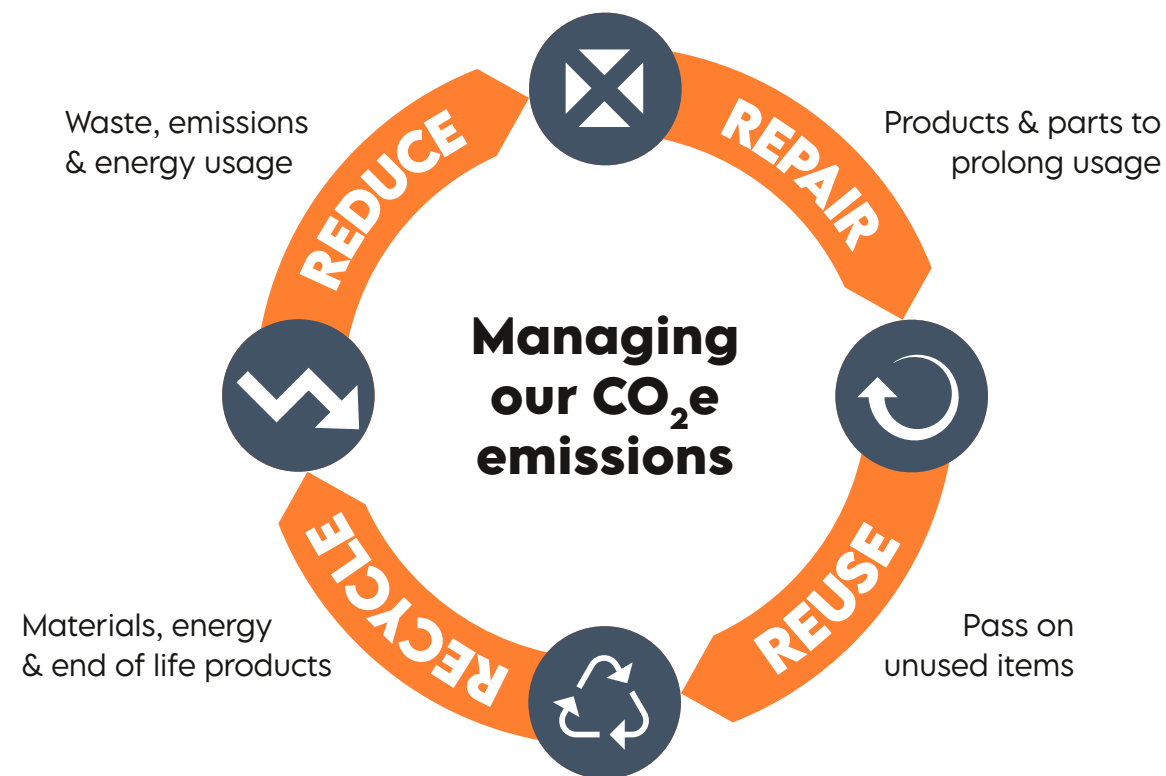

**Pretty much everything we do and buy produces CO<sub>2</sub>e.**

A carbon footprint is the total amount of greenhouse gases produced directly and indirectly by any activity. Greenhouse gases are converted into a carbon dioxide equivalent (CO<sub>2</sub>e), and are measured in tons (tCO<sub>2</sub>e) or pounds (lbsCO<sub>2</sub>e) of carbon dioxide equivalent.

## How can you reduce your carbon footprint?

By taking sustainable actions and working within the circular economy. 4 tangible steps all businesses should take to reduce emissions, repair equipment, pass on, sell or hire out items they don't need for reuse, and recycle materials at end of life.

## The circular economy

## Our commitment to sustainability

At Oxford Plastics, we believe in sustainable products. Since 2021, we have brought new carbon measurements into our business.

1

Designing out waste and pollution

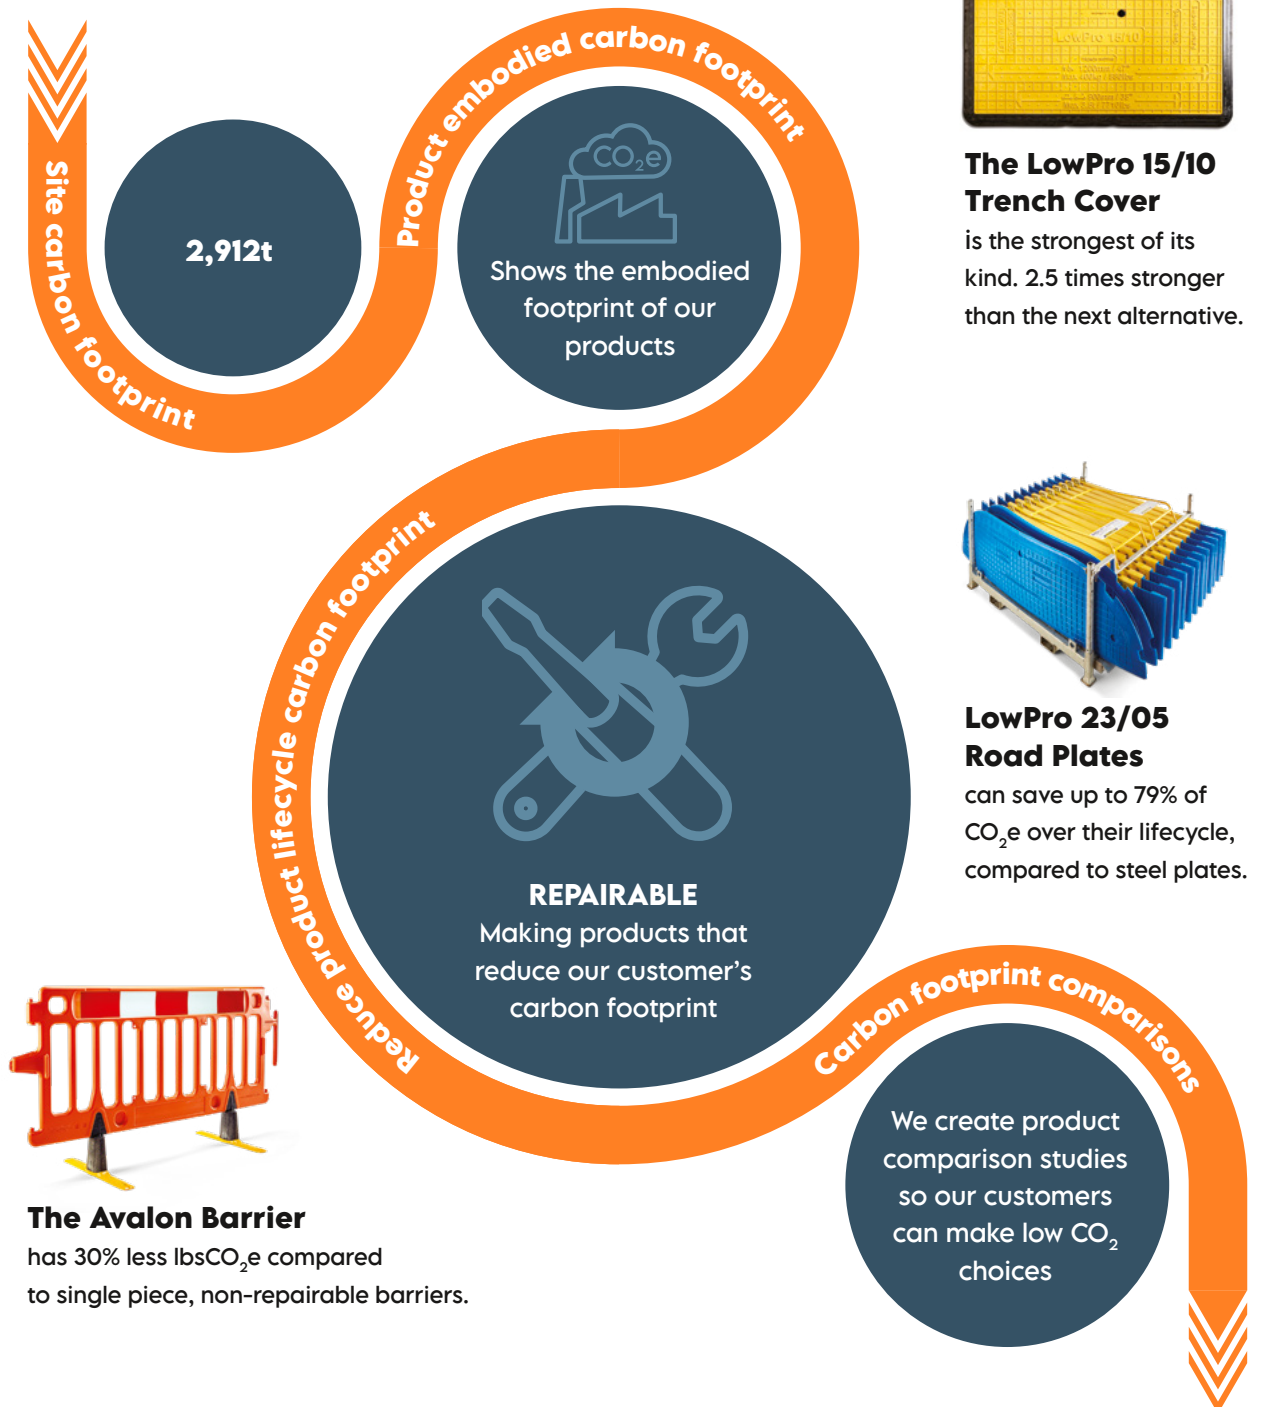

2

Keeping products and materials in use

3

Manufacturing innovative site safety equipment

## Our credentials

# Introducing our latest innovations

As a leading innovator in the manufacture of site safety equipment, we're committed to the design, creation and supply of best-in-class products for an ever-changing world. This is why the Oxford Plastics product portfolio never stands still – we continuously listen to our customers and evolve, develop and innovate our offering, to ensure we're providing best-in-class, problem-solving solutions.

## LOWPRO® STILLAGE

The LowPro Stillage holds 20 LowPro 15/10, 25 LowPro 12/8 & 45 LowPro 11/11 with space for Infill strips and Ramps on top. This heavy-duty metal stillage is stackable and comes with forklift pockets, making storage and transport of LowPros quick and easy.

## LOWPRO® 15/10 ADA RAMPS

LowPro 15/10 Ramp attachments are available in both long, short and corner sizes to create a smooth 1:12 gradient for vehicles and pedestrians when crossing the trench. The full LowPro 15/10 System is available including ADA Ramps and Infill strips to connect boards and prevent drifting, in public facing spaces like airports and travel hubs, sidewalks, street works and in facilities management.

# Trench Covers and Road Plates

Oxford Plastics has spent over 20 years refining the material composition, technology and manufacturing processes of our flagship LowPro Trench Covers and Road Plates range. Today, we offer the most comprehensive range of composite covers in the world, which can be used in a variety of scenarios from walkways to roadways in street works and on construction sites.

The LowPro range is designed to replace steel plates and wooden boards. Light enough to be installed by hand, the LowPro range makes covering excavations quick, quiet and easy. Tested to ensure a 2:1 safety factor, the LowPro range is built to last, with little to no maintenance costs.

# LOWPRO® TRENCH COVER GUIDE

COMPOSITE TRENCH COVERS CAN BE INSTALLED IN THE FOLLOWING SCENARIOS.

- ▶ A Site Safety Risk Assessment must be carried out before installation, only install on compacted surfaces such as concrete or asphalt. Always place the trench cover centrally over the excavation.

▶ In some instances, road plates and trench covers must be anchored for safety, refer to the installation guide for more details.

▶ Trench covers have a maximum width allowance.
- ▶ Trench covers can be linked together to safely cover any length of excavation.

▶ The LowPro range is HAUC Compliant.

▶ LowPro 15/05 and LowPro 23/05 are HS20-44 load rated.

▶ Trench covers must be installed centrally over the trench.

MAXIMUM TRENCH WIDTH	WHAT TYPE OF TRAFFIC WILL CROSS THE TRENCH?

## LOWPRO® 100 NARROW TRENCH COVER

### TRENCH COVER

Developed for Project Gigabit, the LowPro Narrow Trench Cover is ideal for fiber optic cable installations. It is suitable for 3" - 3.9" wide trenches. The recycled plastic material grips the asphalt to minimize movement and provide a stable surface for pedestrians and vehicles. Available in 1m sections, the LowPro 100 is supplied with fixings to anchor pieces together.

### PRODUCT RANGE

### LOWPRO® 100 NARROW TRENCH COVER

#### Usage Benefits

- ▶ Designed for fiber optic cable installations & maintenance

▶ Suitable for Narrow-Trenching: 3" - 3.9" excavations

▶ Low profile, sits flat against the ground

▶ Bends 30 degrees

▶ Suitable for pedestrian traffic and vehicles

▶ 42" sections can securely anchor together
- ▶ Made using recycled plastic and is recyclable

▶ Highly slip-resistant in wet & dry conditions

▶ Hivis inserts for safety day and night

▶ Available in 0.8" and 1.6" depths

▶ Use the LowPro 11/11 over T-Junctions

▶ Comes with nyloc fixings

# LOWPRO® 11/11 TRENCH COVER

## TRENCH COVER

Pedestrian board with patented LowPro Edge technology, suitable for the distributed load of a 3528lb vehicle over a 28" trench.

## PRODUCT RANGE

## LOWPRO® 11/11 TRENCH COVER

### Usage Benefits

- Extremely compact and flat making it easy to transport & store
- Can be easily lifted and installed by 1 person
- Safely cover holes and trenches up to 28"
- Create temporary and semi-permanent pathways and trench cover
- Not for use in roadway
- Inquire about minimum order quantities for customizations
- Hi-vis and anti-trip trench cover provides safe passageway for pedestrians and vehicles up to 3,528 lb
- Trench covers must be installed centrally over the trench
- Reduce CO<sub>2</sub> emissions with lighter transport compared to steel plates
- Eliminate need for cold patch with the patented LowPro Edge, which provides smooth transition

# LOWPRO® 12/8 TRENCH COVER

## TRENCH COVER SYSTEM

The LowPro 12/8 Trench Cover is a versatile trench cover that is suitable for pedestrians and 3528lb vehicles over a 28" trench.

## PRODUCT RANGE

## LOWPRO® 12/8 TRENCH COVER

### Usage Benefits

- Can be easily lifted and installed by 1 person
- Safely cover holes and trenches up to 28"
- Hi-vis and anti-trip trench covers create a safe passageway for pedestrians, wheelchairs and vehicles
- Not for use in roadway
- Prevent drifting and eliminate the need for cold patch using our patented LowPro Edge technology and Infill connectors strips
- To support pedestrians and vehicles up to 3528lb
- Can be utilized individually or as part of a continuous run of multiple units connected with infill strips
- Patented LowPro Edges are moulded around the whole board, creating a durable protective barrier for the trench cover
- Inquire about minimum order quantities for customizations
- Trench covers must be installed centrally over the trench
- Reduce CO<sub>2</sub> emissions with lighter transport compared to steel plates
- Infill connectors allow for smooth transition from cover to cover

# LowPro® 15/10 Trench Cover System

## System Components

The LowPro 15/10 is a modular system of linking trench covers, comprising the trench cover, infill strips and ramps. The infill strips link the trench covers, helping to cover a greater area and provide a much more stable platform, while the 1:12 gradient ramps create greater ease of access for vehicles.

## FEATURES AND BENEFITS

### Save money

Save on the cost of a crane and other expensive lifting machinery with hand-liftable trench covers

### ADA compliant

Ramp attachments in long, short and corner sizes create a smooth 1:12 gradient for vehicles and pedestrians

### Save time

No need to anchor into place in most applications, black rubber edges grip the asphalt

### Durable

LowPro edges protect the trench cover from rough handling on site

### Easy-to-use

Instructions for use are moulded into the anti-slip surface

### Flexible

Cover any length of trench by connecting LowPros together with long or short infill strips & ramps

### Anti-Slip

Hard-wearing anti-slip surface molded into the product

### Corporate branding

Available with corporate logo molded into the trench cover and in bespoke colors. MOQs apply

The LowPro Stillage holds 20 LowPro 15/10, with space for Infill strips and Ramps on top. This heavy-duty metal stillage is stackable and comes with forklift pockets.

## LOWPRO® 15/10 TRENCH COVER

### TRENCH COVER SYSTEM

The LowPro 15/10 Trench Cover uses our patented LowPro Edge technology and is a suitable driveway board for 7,716lb vehicles over a 3ft wide trench.

## PRODUCT RANGE

## LOWPRO® 15/10 TRENCH COVER

### Usage Benefits

- ▶ Can be easily installed, transported and stored
- ▶ Safely cover holes and trenches up to 3ft wide
- ▶ Patented LowPro Edges are molded around the whole board, creating a durable protective barrier for the trench cover
- ▶ Prevent drifting and eliminate the need for cold patch using our patented LowPro Edge technology and Infill connectors strips
- ▶ To support vehicles up to 7716lb
- ▶ Hi-vis and anti-trip trench covers create a safe passageway for pedestrians, wheelchairs and vehicles
- ▶ Enable access for residents to their homes
- ▶ To be configured individually and as part of a larger system including infill strips
- ▶ Inquire about minimum order quantities for customizations
- ▶ Trench covers must be installed centrally over the trench

# LOWPRO® 15/05 ROAD PLATE

## TRENCH COVER

The LowPro 15/05 Road Plate is a modular system of singular linking units. HS20-44 rated, this road plate is suitable for 97,000lb vehicles over a 18" wide trench.

## PRODUCT RANGE

## LOWPRO® 15/05 ROAD PLATE

### Usage Benefits

- ▶ Can be easily transported and stored
- ▶ Can be easily lifted and installed by 2 persons without a crane or heavy-lifting equipment
- ▶ Safely cover holes and trenches up to 28" to support vehicles up to 97,000lbs
- ▶ Create temporary and semi permanent road covers to clearly define thoroughfares to safely direct road traffic and vehicles
- ▶ Molded hi-vis anti-skid surface and chamfered LowPro Edge reduces slips and falls, providing safety in roadways and at crosswalks
- ▶ Inner sections have gravity fed steel drop pins on the underside to prevent lateral movement
- ▶ Maintain quality and performance with spare parts, if necessary
- ▶ Heavy duty interlocking steel connectors lock together to cover any length of trench
- ▶ Trench covers must be installed centrally over the trench, Inner and end sections can be anchored
- ▶ Reduce CO<sub>2</sub> emissions with lighter transport compared to steel plates
- ▶ Patented rubber LowPro Edge deafens noise and eliminates need for cold patch
- ▶ Adhere to local DOT legislation, as this may effect the max. trench width requirements

# Wheelchair Ramps

Designed for street works where pedestrians are diverted from the walkway into the roadway. Tested with UK disability groups using mobility scooters or wheelchairs and the partially sighted.

Highly slip resistant in wet and dry conditions, the Wheelchair Ramp range is moulded with a durable anti-slip surface.

The SupaGrip Ramp uses our patented LowPro anti-slide technology, which grips the pavement for added stability.

SLIP RESISTANT

## SUPAGRIP® RAMP

### WHEELCHAIR RAMP

The SupaGrip Ramp is an anti-slide wheelchair ramp and pedestrian curb ramp, designed for temporary roadworks access.

### PRODUCT RANGE

### SUPAGRIP® RAMP

#### Usage Benefits

- ▶ LowPro edges sit securely on the pavement without the need for anchoring
- ▶ Can be easily transported and stored
- ▶ Can be easily lifted and installed by 1 person
- ▶ Can be safely used on curbs between 2.3" and 6.3"
- ▶ Create temporary and semi-permanent curb ramps
- ▶ Spare parts available, if necessary, to maintain the life of your wheelchair ramp
- ▶ Clearly defined thoroughfares to safely direct pedestrian traffic and mobility vehicles
- ▶ To support mobility vehicles and foot traffic up to 771lb
- ▶ Fully recyclable
- ▶ Hi-vis anti-skid surface and raised sides

## ADA ACCESSIBILITY IN STREET WORKS

Street works are a necessary part of maintaining road infrastructure, pedestrian safety and the modernization of our environment. However, this often poses its challenges to pedestrian accessibility – especially for those with a disability that affects their mobility.

That's why, here at Oxford Plastics, not only do we provide the relevant equipment to ensure that pedestrian safety is maintained at all times during street works, but also the capability to cater for everyone – providing an all-inclusive way of working. We comply with ADA Standards – meaning that our street works products are applicable to those who have a disability, and can be used and installed in a way that caters specifically to those who have

reduced mobility. This isn't always just wheelchair users, either – it could refer to the elderly, parents with strollers and pedestrians who need to use a stick or a guide-dog.

It's also important to consider the hidden disabilities that people may be facing – such as autism, dementia or learning disabilities. Although this may not directly hinder people's mobility, the impact of street works accessibility

may be confusing for people – which again, shows why it's so important that the correct safety measures are implemented.

This is why Oxford Plastics works with leading US utility providers, street works contractors and disability groups to design products that make a difference.

## ADA ACCESSIBILITY PRODUCTS FROM OXFORD PLASTICS

### ADA STRONGWALL & STRONGFENCE

The anti-trip street works barrier and fence, maximizes the space for pedestrians on diverted walkways

### LOWPRO TRENCH COVER INFILLS & RAMPS

The only trench cover system with a smooth 1:12 gradient, designed for wheelchair users and cyclists to easily navigate street works

REPAIRABLE

# Barriers and Fencing

Oxford Plastics manufacture a wide range of barrier and fencing solutions for street works, construction sites and facilities management.

Our street works barrier range is used by businesses around the world to provide safe spaces for the workforce and the public. This includes 3 ft high pedestrian barriers, and 6 ft high fences for deep excavations and site protection. Featuring patented anti-tamper locking systems, pedestrian barriers are lightweight and are designed to be carried and installed by 1 person. Complete with high-quality British Standard reflective.

We also manufacture a wide array of ballasting solutions made from recycled PVC, which replace unreliable sandbags.

## AVALON® BARRIER

### PEDESTRIAN BARRIER

The Avalon is our most versatile and popular safety barrier, suitable for a wide range of indoor and outdoor pedestrian applications. Common uses include construction, excavation, street works, events and utility sites.

### PRODUCT RANGE

### AVALON® BARRIER

#### Usage Benefits

- ▶ Adaptable to the work site's requirements with 2 feet options: ClearPath Extra which is 100% antitrip or standard.
- ▶ Can be easily transported and stored
- ▶ Clearly defined access in high traffic area
- ▶ Ensure mandated physical distance measures
- ▶ Patented tamper-proof locking system to protect site staff and pedestrians against risk factors
- ▶ Keep a secure semi-permanent perimeter with our ballasting options
- ▶ Maintain quality and performance with spare parts, if necessary
- ▶ Inquire about minimum order quantities for customizations
- ▶ Able to be returned to Oxford Plastics to be fully recycled

## STRONGWALL®

### PEDESTRIAN BARRIER & FENCING

A robust plastic, non-conductive safety barrier with typical applications at events and on construction sites to ensure maximum safety to both members of the public and site workers.

### PRODUCT RANGE

### STRONGWALL

#### Usage Benefits

- ▶ Create a highly stable barrier or fenced perimeter to combat high volumes of traffic even in hot weather conditions, with no additional ballast
- ▶ A heavy duty, durable component used for easy and effective installation
- ▶ Breaks down into three components for compact storage and transport
- ▶ Keep worksites secure with 6ft tall anti-climb fencing
- ▶ Inquire about minimum order quantities for customizations
- ▶ Be confident that your fence line will stay in tact with connections which are moulded to the barrier
- ▶ Non-conductive plastic to keep your worksite and the public safe around live sites
- ▶ A closed loop recycling product: made using recycled PVC
- ▶ Able to be returned to Oxford Plastics to be fully recycled
- ▶ ADA compliant base available

## SAFEGATE®

### MANHOLE BARRIER

The SafeGate barrier is designed for use around temporary excavations and commonly used in the communications industry.

### PRODUCT RANGE

### SAFEGATE

#### Usage Benefits

- ▶ Portable solution making it easier to carry & deploy
- ▶ Lightweight, which keeps overall vehicle weight low, and allows for easy installation
- ▶ Keep sites protected in high wind conditions by using the SafeBase
- ▶ Clearly cordon off areas to reduce the danger of pedestrians/site staff entering restricted zones
- ▶ Ability to reinforce social distancing measures
- ▶ Can be configured in a square or in a line with the SafeBase
- ▶ Able to be returned to Oxford Plastics to be fully recycled

## LANTIS® BARRIER

### PEDESTRIAN BARRIER

The Lantis Barrier, made from recycled plastic, can be used in parades, sporting venues, ticketing lines and much more. Lighter than steel, yet significantly more durable, the Lantis Barrier is the replacement for metal pedestrian barriers.

### PRODUCT RANGE

### LANTIS® BARRIER

#### Usage Benefits

- ▶ A closed loop recycling product: made of PCR plastic
- ▶ Lightweight and portable solution for easy installation
- ▶ Stacks compactly, easily transported and stored by 1 person
- ▶ Clearly defines access and thoroughfares in high traffic area
- ▶ Ensures mandated physical distance measures
- ▶ Connectors compatible with most existing metal barrier fleet
- ▶ Maintain your barrier fleet with spare parts, including feet, connectors and body sections
- ▶ Robust & long-lasting 'drive-over' toughness, which springs back into shape
- ▶ Inquire about minimum order quantities for customizations
- ▶ Fully recyclable

# Fence Feet and Heavy Bases

Our fence feet and heavy bases are first and foremost effective, durable and safe for use on construction sites and at high profile sporting and entertainment events.

Their high-visibility ends are patent protected to keep your work site safe by reducing the risk of trips and falls.

Oxford Plastics is one of the biggest users of recycled PVC in the world and in 2019 we used 16% of all the recycled PVC in the UK.

We go to great lengths to use recycled materials in our products – none more so than with our fence feet and heavy bases – and at the end of their life most of these can be re-ground into new products.

**DURABLE RECYCLED  
MATERIAL**

**HIGH VISIBILITY**

**PATENT PROTECTED**

**CUSTOMIZABLE**

OXSTAND®

FENCING

The OxStand is an alternative to the metal tube stand, commonly used with temporary metal fencing at events and on construction sites. Easy to stack, store, and transport, reducing costs. Carry multiple OxStand with handholds.

PRODUCT RANGE

OXSTAND

Usage Benefits

- ▶ Can be easily installed, transported and stored
- ▶ Use with the Temporary Fence Weight to provide weighted stability across fencing systems
- ▶ Reduce cost and installation labor time
- ▶ Carry multiple OxStands at once for ease of installation
- ▶ Yellow hi-vis inserts can be branded, inquire about minimum quantity orders for customizations
- ▶ Durable base with removable fiberglass backbone that adds strength
- ▶ Easy to repair, if warranted, risers can be replaced manually without tools
- ▶ More surface area for ballast weight to rest on, if more ballast is warranted
- ▶ Steel risers are open, allowing water to pass through
- ▶ Low profile and designed for panels with a 1 3/8" post

Repairable

TEMPORARY FENCE WEIGHT

FENCING

The Temporary Fence Weight is a high-visibility ballast weight for temporary fencing. The alternative to sandbags, which does not decompose or leak sand onto pavements and work sites. The Temporary Fence Weight ballasts fence panels to create a long lasting, wind-resistant perimeter.

PRODUCT RANGE

TEMPORARY FENCE WEIGHT

Usage Benefits

- ▶ Create a wind resistant fence perimeter for construction sites and events
- ▶ Eliminate sand bags which decompose and create mess
- ▶ Carry multiple Temporary Fence Weights at once using the internal handles
- ▶ Create an anti-trip walkway using this low-profile and hi-vis ballast
- ▶ Stack and secure multiple Temporary Fence Weights on top of metal tube stands and OxStand to create a semi-permanent fence line
- ▶ Reduce call outs due to fences falling over
- ▶ A closed loop recycling product: made of recycled PVC
- ▶ Easy to stack, store, and transport

# OXBLOCK

## FENCING

This heavy base forms a stable base for metal and plastic temporary fencing. The OxBlock is an alternative to concrete blocks, made from a tough thermoplastic compound that is shock resistant.

## PRODUCT RANGE

## OXBLOCK

### Usage Benefits

- ▶ Can be easily stored and transported using the internal handles
- ▶ A versatile and durable component that can be used with a range of fencing
- ▶ Create enhanced stability of fencing systems to maintain demarcation and social distancing
- ▶ Reduce trip hazards with these low-profile, compact fence feet
- ▶ Can reinforce contractor, client or project branding, as required
- ▶ Provide added visibility for workers, spectators or pedestrians with hi-vis ends
- ▶ A closed loop recycling product: made of recycled PVC
- ▶ Fully recyclable

# Mats and Ground Protection

Oxford Plastics have a range of ground protection solutions for temporary, semi-permanent and permanent uses.

We mould anti-slip surfaces into our products, providing a grippy surface that won't fade over time. Our mats and grids are made for both vehicle and pedestrian access. The range is designed to provide safe passageway for all traffic, particularly in wet and muddy situations.

Oxford Plastics have developed a suite of accessories to make your site safe and sound, including parking delineator inserts for the EnduraGrid, and heavy-duty connectors for the EnduraMat.

# ENDURAMAT™

## GROUND PROTECTION MAT

Heavy duty ground protection mat suitable for worksites, events and creating temporary access. Drive cars, trucks, forklifts, tractors and cranes up to 176,000 lbs, causing little to no disturbance to the ground underneath.

## PRODUCT RANGE

## ENDURAMAT™

### Usage Benefits

- ▶ Clearly demarcate walkways and thoroughfares to avoid hazards
- ▶ Create stable ground conditions for heavy vehicles and machinery
- ▶ Clearly signpost to inform, educate and navigate pedestrians
- ▶ Create semi-permanent roadways using heavy-duty couplers
- ▶ Create clear passageways to help reinforce social distancing measures
- ▶ Create portable roadways using light-duty couplers
- ▶ Inquire about minimum order quantities for customized branding and colors
- ▶ Made from recycled material and can be returned at end of life for recycling or reuse
- ▶ Prevents costly damage to landscapes and hardscapes
- ▶ Vehicle and pedestrian anti-skid surface
- ▶ Easier to maneuver with molded hand grips
