

ENDURAGRID™

GROUND PROTECTION

EnduraGrid is an interlocking porous paving system designed to reinforce the ground. Perfect for carparks, driveways, paths, patios and muddy areas.

PRODUCT RANGE

ENDURAGRID™

Usage Benefits

- ▶ Create permanent ground protection grids
- ▶ Lightweight and durable for easy transport and installation by 1 person
- ▶ Interlock the paving system to reinforce the ground
- ▶ Support vehicles up to 44 tonnes depending on ground conditions
- ▶ Parking marker spots slot into the grid to demarcate car park spaces
- ▶ Protect car parks, driveways, paths and soft/muddy ground
- ▶ Create long-lasting porous ground protection areas that work all year round
- ▶ Install up to 3900ft² per hour
- ▶ Cutaways permit grass root growth to keep lawns looking green
- ▶ Curved lattice structure creates a flat surface: the grid allows for expanding and contracting in hot weather to prevent the surface from rounding up

Product No.	O681
Width	500mm
Length	500mm
Height	65mm
Weight	2kg
Quantity / Pallet	120
Colour	Black

Product No.	O684
Width	69mm
Length	69mm
Height	68mm
Quantity/Pallet	100
Colour	White / Yellow
